PAPYROS®

K I L N S H E L F P A P E R

- **Extra sturdy**
- **Fast & easy clean-up**
- **Available in Sheets & Rolls**
- **Narrow & Wide Rolls offer better yields than sheets***

PAPYROS® Kiln Shelf Paper is an extra sturdy ceramic-based product specially formulated for glass fusing. PAPYROS provides excellent separation, preventing glass projects from sticking to the kiln shelf when placed between the shelf and the underside of the glass. PAPYROS is available from your Spectrum Glass supplier in sheets and rolls, including a space-saving 20.5in. wide *Craft Roll* in a handy dispensing box.

Watch the spatula clean-up demonstration video online.

Worth Watching: Visit system96.com/PAPYROS and check out all the PAPYROS instructional videos — including the demo of the spatula clean-up method (at left). Detailed product usage and safety information can also be found online.

Available in the following sizes:

Style	Size	Stock Number
Pre-cut Rounds	13in. diameter (33cm) pre-cut round sheets <i>Easiest way to cover a small kiln shelf</i>	PYROS-13C-100
Sheets	20.5in. x 20.5in. sheets (52cm x 52cm) <i>Perfect for occasional fusers</i>	PYROS-20.5X20.5
Craft Roll	20.5in. wide x 82ft. roll (52cm x 25m) <i>For crafters who want the benefits of a roll as well as the convenience of a space-saving dispensing box</i>	PYROS-20.5X82
Studio Roll	41in. wide x 33ft. roll (104cm x 10m) <i>Provides the opportunity to benefit from purchasing a full width roll without the investment of a full length bulk roll</i>	PYROS-41X33
Commercial Bulk Roll	41in. wide x 250ft. bulk roll (104cm x 76m) <i>For serious fusing studios that require a high-volume roll at the lowest price</i>	PYROS-41X250

***Crafters' Narrow Roll**
Covers 75 entire 13in. shelves
(58% better 13in. shelf yield over using sheets)

***Studios' Wide Roll**
Covers 90 entire 13in. shelves.
(131% better 13in. shelf yield over using sheets)
